

Einkommenstarif ab 1. Januar 2025

Auf den folgenden Seiten sind die einzelnen Stufen aufgeführt. Diese sind für die Berechnung der einfachen Steuer (100%) für Alleinstehende anzuwenden.

Für in ungetrennter Ehe lebende Steuerpflichtige sowie für getrennt lebende, geschiedene, verwitwete und ledige Steuerpflichtige, die mit Kindern im Sinne von Artikel 33 des Steuergesetzes zusammenleben, ist für die Ermittlung des satzbestimmenden Einkommens das steuerbare Gesamteinkommen durch den Divisor 1,7 zu teilen.

Beispiel

Steuerbares Gesamteinkommen: CHF 175'300
geteilt durch Divisor 1,7 ergibt CHF 103'100, Steuersatz = 12 %

Berechnung der einfachen Steuer: 12 % von CHF 175'300 = CHF 21'036

Die einfache Steuer für das Vermögen beträgt unverändert 3 ‰
